BRIDGESCOUT® BASIC MAKES YOU AWARE OF AN APPROACHING OBJECT AT A DISTANCE OF 500 METERS FROM AN OBJECT

Menu

No internet connection

- Distance to object
- Speed of your vessel
- Time to object

ERROR MESSAGES

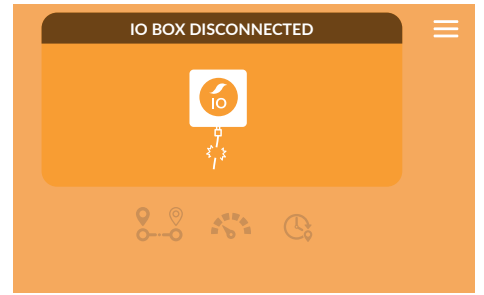

Please note that in case of an error Bridgescout® Basic is not functioning.

Check the wiring and the GPS antenna for damage and contact Sensor Maritime.

Wait until Bridgescout® regains a GPS position. If it takes more than 10 minutes, with the exception of locations where a poor reception is likely, please contact Sensor Maritime.

Please contact Sensor Maritime. Please note that your additional products, like wheelhouse height sensor and/or antenna mast detection sensor, will not function.
